Allowable Subject Matter

1. Claims 2-8 are allowable over prior art.

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter based on the Amendment filed on May 20, 2005.

As in claim 3, the prior art fail to teach or fairly suggest a movement unit that moves an immersion lens to a position higher than the height of a foreign material having the following feature:

(a) after the detector detects the foreign material, a predetermined time of a delay detection signal necessary for the movement unit to move to a predetermined height is set to a shorter time than a time in which the foreign material reaches the position of the movement unit.

The features indicated above, in combination with the other elements of the claims, are not anticipated by, nor made obvious over the prior art of record.

3. Any response to this action should be mailed to:

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450
